Description

Ubiquiti USW-FLEX-XG Layer 2 with 4 x 10GbE RJ45 ports and 1 x GbE, 802.3at PoE+ RJ45 input

High Performance Managed Layer 2 Multi-Gigabit switch with (1) PoE input and (4) 10GbE Ethernet ports.

Build and expand your network with the USW-Flex-XG. The UniFi Flex XG is a configurable managed-grade 10GbE Layer 2 switch. It offers 5 RJ45 Gigabit Ethernet ports, providing (1) PoE input and (4) 10GbE RJ45 Ethernet ports to your network. Housed in a compact and slim design, the UniFi Flex XG can fit into any networking environment, delivering high performance switching capacity and easy management via the UniFi Network controller.

Desktop-Mountable (Do not physically stack the USW-Flex-XG.)

A compact, five-port, Layer 2 switch that supports 10GbE speeds and can be powered with PoE or a 5V USB-C adapter.
